About US

Hubei Wanli Protective Products Co., Ltd. was established in 1998 by Wellington Liu. We value R&D, production and sales as a whole to provide solutions in the fields of medical protection, industrial protection and non-woven fabrics. We are a big group of 800 employees, including 30 technical R&D personnel, 50 business personnel and 50 senior professional titles.

Hubei Wanli is a "National High-tech Enterprise", and honored as "China Industrial Textile Leading Enterprise". In 2021, it was rated as one of the top 100 private enterprises in manufacturing in Hubei Province. The company has achieved integrating the whole supply chain from the production of non-woven raw materials, the production of personal protective equipment, domestic and international sales, and retail B2C.

Hubei Wanli operates multiple dust-free production workshop totaled 100,000 square meters (1 million square feet). It holds international trademark "XIAN WANLI" and domestic trademarks "Xian wanli", "Aishangshimei" and "Yuechen", and 20 product patents. The company strictly implements ISO 13485, ISO 9001 quality management system standards and ISO 14001 environmental management system standards, and has passed the EU CE, US Nelson and UK BSI quality inspection certificates, as well as the Sedex international human rights certificate. Products are exported to more than 80 countries in the world.

Hubei Wanli focuses on R&D of respiratory protection and body protection. Product portfolios includes medical masks, protective masks, medical protective clothing, industrial protective clothing, surgical gowns, isolation gowns and other products. All kinds of masks produced have passed international and domestic mainstream tests and certifications such as YY/T 0969, YY 0469, GB 19083, GB 2626, GB 32610, EN 14683, EN 149, ASTM F2100, etc. Protective clothing products have passed the testing and certification of GB 19082, GB 24539, and EU Type 3/4/5/6. Surgical gowns and isolation gowns have passed YY/T 0506, EN 13795, AAMI/ANSI PB 70 testing and certification. And we runs a 10,000-level medical and industrial laboratories, introduced the most advanced experimental testing equipment at home and abroad.

The flagship brand CornyCozy® developed and produced by Hubei Wanli are dedicated to home protection products with its anti-bacterial and skin-friendly features. Currently the brand owns numerous feedback from domestic consumers.

We believe PETER (Professionalism, Effectiveness, Transparency, Efficiency, and R&D) will lead us to continued success.

Be Safe, Be Sure, Xian Wanli!

Always the best or nothing.
Wellington Liu - President and Founder

1998 

Hengkang Protective Products Co., Ltd. was founded by Wellington Liu. The workshop produced medical gauze items.

2008 

Owned the second plant, complied with ISO 13485, focused on producing Medical masks and coveralls for foreign clients.

2018 

Hubei Wanli laboratory was built with testing capability for internal QC and key requirements for masks and garments.

2021 

New headquarter was put into construction with an investment of \$30 million, completed in year of 2022.

2006 

Company name changed to Hubei Wanli Protective Products Co., Ltd. Owned the first plant, focused on manufacturing of non-woven items.

2009 

We built International business team, started exporting, now business covers 60 countries worldwide, mainly in EU & NA.

2020 

Owned the third plant, focused on producing FFP1/2/3 masks and Medical coveralls.

2021 

The workshop of raw material was completed and put into production of laminated, PP and Melt blown, new production line of SMS fabric completed in year of 2022.

 <p>Polyethylene (PE) barrier coating Nonwoven inner layer</p>	PP+PE Coated	Polypropylene PE laminate is designed to offer a good barrier against hazardous particles and limited liquid splashes, while the micropores allow for some breathability.
 <p>Nonwoven outer layer Meltblown layer Nonwoven inner layer</p>	SMS	Spunbound Meltblown Spunbound are robust breathable fabrics, designed to offer a good barrier against hazardous particles and limited liquid splashes.
 <p>Microporous polyethylene film Nonwoven inner layer</p>	PP+PE Coated	The extremely light and tight spunbond-polypropylene-laminate provides an effective barrier against many organic and inorganic liquid chemicals in liquid splashes and sprays.

	Serged	A serged seam is an economical stitching method for general applications. This stitching method is generally not used for chemical protective clothing. It is more commonly found on disposable clothing where dry particulates are a concern.
	Bound	A bound seam joins two pieces of material with an overlay of similar material and is chain stitched through all layers for a clean finished edge. This provides increased holdout of liquids and dry particulates.
	Serged and Taped	A heat sealed seam is sewn and then sealed with a heat activated tape. This method provides liquid proof seams, and is especially useful for Level A and B chemical protective clothing.

[Type 4B / 5B / 6B Chemical Spray Tight Coverall]

This is an extremely excellent lightweight and flexible Type 4B & 5B & 6B entry-level chemical protective coverall. Stitched and taped seams provide full seal, no seam holes to allow penetration of dusts and liquids.

- Fabric: Microporous film laminate
- Seam Type: Stitched & taped seams
- Style: Elasticated hood/waist/wrists/ankles, 2-way zipper with adhesive taped flap, thumb loops

Protection Level

- EN 14605: 2005+A1: 2009-Type 4: Protective clothing against liquid chemicals

Surgical Gown

we are EXPERTS in surgical gowns and isolation gowns manufacturing. After years of testing and innovation at our own lab, we are proud to present a spectrum of our gowns that passed all levels of American and European standards for surgical gowns and isolation gowns.

ANSI/AAMI PB70: 2012

Liquid barrier performance and classification of protective apparel and drapes intended for use in health care facilities.

EN 13795

Surgical clothing and drapes requirements and test methods part 1: Surgical drapes and gowns.

Classification	Risk Level	Application
Level 1	Minimal risk	Basic care, standard isolation, cover gown for visitors, or in a standard medical unit
Level 2	Low risk	Blood draw, suturing, in the Intensive Care Unit (ICU), or a pathology lab
Level 3	Moderate risk	During arterial blood draw, inserting an Intravenous (IV) line, in the Emergency Room, or for trauma cases
Level 4	High risk	Long, fluid intense procedures, surgery, When pathogen resistance is needed or infectious diseases are suspected (non-airborne)
Standard Performance	Low Risk	Blood draw, suturing, in the Intensive Care Unit (ICU), or a pathology lab
High Performance	High Risk	Long, fluid intense procedures, surgery, When pathogen resistance is needed or infectious diseases are suspected (non-airborne)

WLG1000 [Heavy Duty Surgical gown]

The SMS gown is reinforced with a PE film on front and sleeves. That perfectly covers the so-called “Critical Areas” noted by US and EU medical gown standards.

Main Features

Breathable Composite Fabric
Four Waistbands for Better Fit
Knitted Cuffs for Comfort

Performance:

Fluid Repellent
Against Blood-born Infectious Agent
Excellent Tensile Strength
Low-linting
Latex Free
Sterile or Non-sterile

Standard:

AAMI Level 4 Surgical Gown
EN 13795 High Performance

WLG1001-Hi [Reinforced Surgical Gown]

The SMS gown is reinforced with a PE film on front and sleeves. That perfectly covers the so-called “Critical Areas” noted by US and EU medical gown standards.

Main Features

WLG3001 [Type PB-4B Chemical Isolation Gown]

Ideal for handling cytostatics and various laboratory activities. An effective barrier against many low-concentration, water-based inorganic chemicals (even under pressure), small-sized hazardous particles as well as oil repellent.

Knitted cuff for better comfort. Openness in the back closure for increased ergonomics of the wearer - the hazard and uncomfortable feeling of slipping is avoided while sitting in front of the bench.

Fabric: Microporous film laminate
 Seam Type: Stitched & taped seams
 Style: One piece opening at back, ties at waist and back neck, knitted cuffs

Standard:
EN 14605:2005+A1:2009 Type PB 4B
 Protective performance against spray and infective agents

EN 14126:2003+AC:2004
 Performance requirements and tests methods for protective clothing against infective agents

WLLJ [Disposable Non-woven Jackets]

As an ideal complement to unhooded overalls and lab coats, the jacket/trousers combination can help to increase the wearing comfort compared to the overall or to increase the protective effect compared to the disposable lab coat.

Fabric: PP, SMS, Microporous
 Style: Knitted collar, fold-down collar, stand-up collar.
 Pockets available
 Closure: Snap button, Velcro, zipper
 Cuff: Elastic, knitted
 Waist: Elasticated, non-elasticated
 Size: S-XXL
 Color:

REF	Fabric	Weight	Style	Comfort	Size	Check
WLLJMPS3K2	Microporous	25-65gsm	Snap Button with 3 Pockets	Knitted Collar & Cuff, Elastic Waist	S-2XL	
WLLJPPV3S3	PP	30-65gsm	Velcro with 3 Pockets	Round Collar, Elastic Cuff, Un-elastic Waist	S-2XL	

WLLP [Disposable Non-woven Pants]

Universal fittings, prevents clothing from contact with dust and liquid. Most protective and economic, stops migration of skin cell and virtually lint free. Soft light weight, comfortable and provides opacity.

Products are made from PP / SMS non-woven fabric. PP is the best for economic solution to stopping migration of visible particle. SMS is featured with excellent water repellency and air permeability resulting in providing comfort & dryness as well as anti-bacterial and anti fungal resistance.

Activities

Wood working

Soft wood: Sanding and cutting
 Hard wood (oak, beech, tropical wood): Sanding and cutting
 Sanding/brushing off colour
 Sanding/brushing off colour (paint containing chrome)
 Water-soluble paint containing copper/chrome/arsenic

Construction and related industries

Cement work, plastering, tiling, roofing
 Masonry: Cutting, drilling, demolition
 Asbestos: Working with small amounts
 Roof insulation, glass and mineral fibres
 Putty/filler: Sanding

Welding work

Stainless steel and aluminium welding
 Hard soldering

Metalworking

Metal: Drilling, grinding, milling, angle grinding
 High alloy steel/stainless steel

Disposal/Cleaning work

Waste sorting and disposal
 Disposal of medical waste
 Sweeping floors
 Radioactive dust

Agriculture

Animal diseases/handling sick animals
 Handling mould spores
 Handling hay, cereal, flour

Medicine/Care/Health

Allergies, pollen, house dust, pet hair
 Bacteria, viruses, infections, legionella

Harmful substances

Fine particles, wood dust
Fine particles, wood dust
Fine paint particles
Fine paint particles
Fine paint particles
Cement/plaster/tile/brick dust
Fibres
Dust and fibres
Dust
Metal and aluminium oxide smoke
Smoke
Metal dust
Drilling, grinding, milling, angle grinding Metal dust
Dust, fungi
Bacteria, spores
Dust (not toxic)
Dust

Overview of applications

EN 149 Explained

EN 149:2001+A1:2009

Respiratory protective devices. Filtering half masks to protect against particles.

Respirators which meet the requirements of EN149: 2001 are designed to protect against solids, water based aerosols and oil based aerosols. There are three classes of protection detailed in EN149: 2001 – FFP1, FFP2 & FFP3 and filtering facepieces are classified according to filter efficiency.

- R=Reusable
- NR=Non reusable
- Activated Carbon: Layers of carbon designed to offer relief from the irritation of low level of specific gases and vapors

Class	Filtering Efficiency EN 149 at 95 L/min airflow, others at 85
FFP1	80% salt and oil aerosol
FFP2	94% salt and oil aerosol
FFP3	99% salt and oil aerosol
KN95	95% salt aerosol
N95	95% salt aerosol

WL-2010C-FFP1

[FFP1 Carbon Respirator]

PFE: $\geq 80\%$
 Style: Metal / plastic nose clip, adjustable spandex ear-loop, without valve
 Standard: EN149:2001+A1:2009
 Package: 20 pcs / box, 240 pcs / ctn

WL-2010-FFP1

[FFP1 Respirator]

PFE: $\geq 80\%$
 Style: Metal / plastic nose clip, adjustable spandex ear-loop, without valve
 Standard: EN149:2001+A1:2009
 Package: 20 pcs / box, 240 pcs / ctn

WL-2011-FFP1

[FFP1 Valved Respirator]

PFE: $\geq 80\%$
 Style: With valve
 Standard: EN149:2001+A1:2009
 Package: 20 pcs / box, 240 pcs / ctn

WLM2013-FFP1

[FFP1 Carbon Valved Respirator]

PFE: $\geq 80\%$
 Style: With valve
 Standard: EN149:2001+A1:2009
 Package: 20 pcs/box, 2000 pcs/ctn

WL-2010-FFP2

[FFP2 Respirator]

PFE: $\geq 94\%$
 Style: Without valve
 Standard: EN149:2001 +A1:2009
 Package: 20 pcs / box, 240 pcs / ctn

WL-2011-FFP2

[FFP2 Valved Respirator]

PFE: $\geq 94\%$
 Style: With valve
 Standard: EN149:2001+A1:2009
 Package: 20 pcs/box, 240 pcs/ctn

WL-2011C-FFP2

[FFP2 Carbon Valved Respirator]

PFE: $\geq 94\%$
 Style: Metal / plastic nose clip, adjustable spandex ear-loop, with valve, with carbon layer
 Standard: EN149:2001+A1:2009
 Package: 20 pcs/box, 240 pcs/ctn

WL-2030-FFP2

[FFP2 Respirator V2]

PFE: $\geq 94\%$
 Style: Without valve
 Standard: EN149:2001+A1:2009
 Package: 20 pcs/box, 240 pcs/ctn

WL-2031-FFP2

[FFP2 Valved Respirator V2]

PFE: $\geq 94\%$
 Style: With valve
 Standard: EN149:2001+A1:2009
 Package: 20 pcs/box, 240 pcs/ctn

【FFP3 Valved Respirator】

PFE: ≥ 99%
 Style: with valve
 Standard: EN149:2001+A1:2009
 Package: 10 pcs / box, 120 pcs / ctn
 Description:
 Fabric: 5 Layer
 Seam Type: Stitched & taped seams

REF: WL-2012V NR D FFP3

【FFP3 Valved Respirator with carbon layer】

PFE: ≥ 99%
 Style: with valve, with carbon layer
 Standard: EN149:2001+A1:2009
 Package: 10 pcs / box, 120 pcs / ctn

REF: WL-2012C-FFP3

【KN95 Respirators】

Style: with valve
 Standard: GB2626-2019
 Package: 20 pcs / box, 240 pcs / ctn

【KN95 Foldable Respirator】

Style: without valve
 Standard: GB2626-2019
 Package: 20 pcs / box, 2000 pcs / ctn

【FFP2 Folding Respirator with Head-band】

PFE: ≥ 94%
 Style: Head-band
 Standard: EN149:2001+A1:2009
 Package: 20 pcs/box, 960 pcs/ctn

【KN95 Kid's Foldable Respirator】

Style: without valve
 Standard: GB2626-2019
 Package: 25 pcs / box, 2000 pcs / ctn

【KN95 Foldable Respirator】

Style: with valve
 Standard: GB2626-2019
 Package: 20 pcs / box, 2000 pcs / ctn

WLM2002 [Surgical Mask]

We are an expert in medical mask manufacturing and testing. You will always find your desired mask in different standards and styles.

Anti-fog film, foam and tapes reduce distractions from fogging issues. Transparent and anti-scratching visor keeps eyes clear of blood and splash.

Material: PP+Meltblown+PP, 25+25+25gsm by request
 Style: 3-Ply, Ear-loop
 Size: 17.5*9.5cm,
 Color: ●●●●●●
 Package: 50 pcs/box, 2000 pcs/ctn

Standard:
 EN 14683 Type I, Type II, Type II R
 ASTM F2100 Level 1 / 2 / 3
